

Vertical Banner Stand with Sign Topper

Assembly Instructions

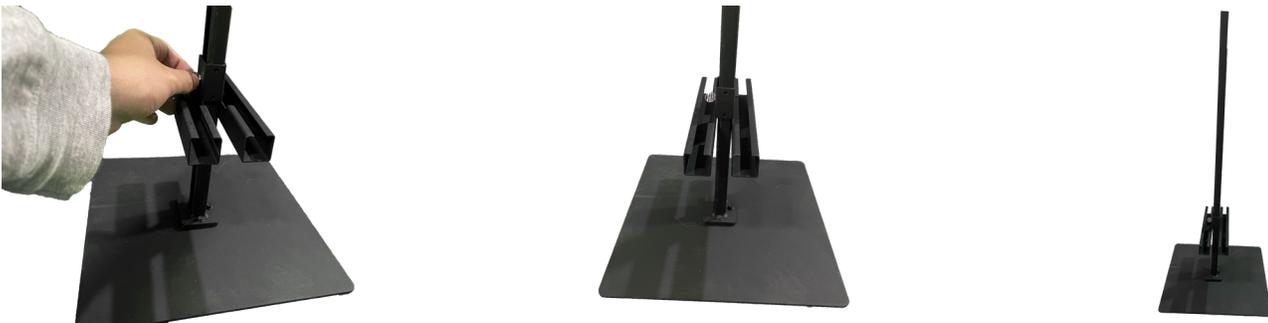

Step 1:

Screw pole onto base.

Step 2:

Slide the banner holder onto the pole and twist the side screw to tighten.

Step 3:

Slide the second pole into the first pole, and tighten the side screw on the side of the first pole.

Step 4:

Slide the third pole over the top of the second pole and tighten the screw on the third pole.

Step 5:

Position the top banner holder on top of the third pole and tighten the side screw.

Step 6:

Insert dowels through the openings on the banner.

Assembly instructions continued on next page.

Step 7:

Insert the dowels into top and bottom banner holders.

Step 8:

Position banner to the desired position by adjusting the second and third poles length to tighten or loosen the banner. Add optional coro sign topper by sliding into channel of top bracket.

Stand with Banner only

Stand with additional sign topper added
