

How To: Install A Large Die-Cut Decal

1 Clean surface

2 Use masking tape to temporarily adhere to intended surface and as a "hinge".

3 Use line of text as a place to measure from - so it's level.

4 Peel and cut off bottom half of decal backing.

5 Using a decal application squeegee, press and apply decal to intended surface in pattern shown above. *

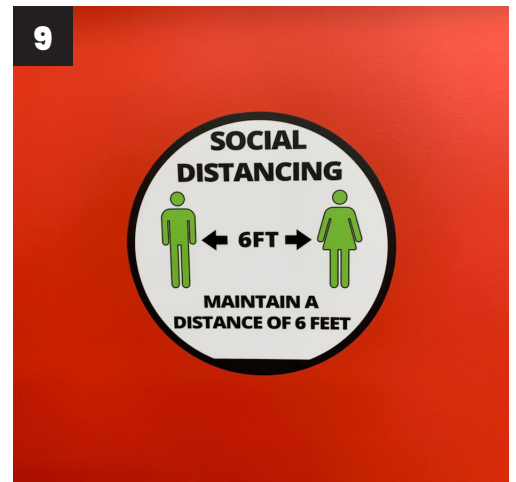

6 Remove masking tape "hinge".

7 Peel and remove upper half of decal backing.

8 Using a decal application squeegee, press and apply decal to intended surface in pattern shown above. *

9 Stand back and admire your job well done!

* If you do not have a decal application squeegee, you can use a credit card, your wallet, or a pack of post-it notes.
