How To: Install A Transfer Cut Decal
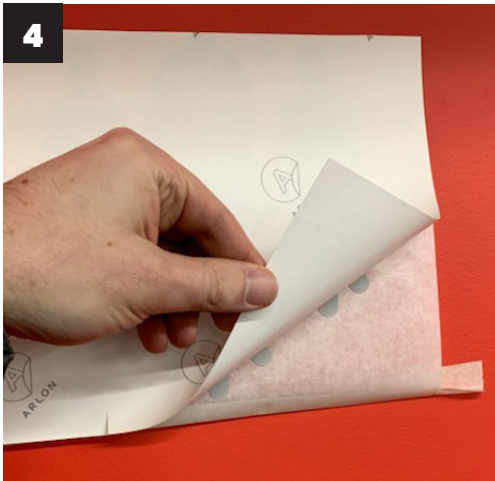

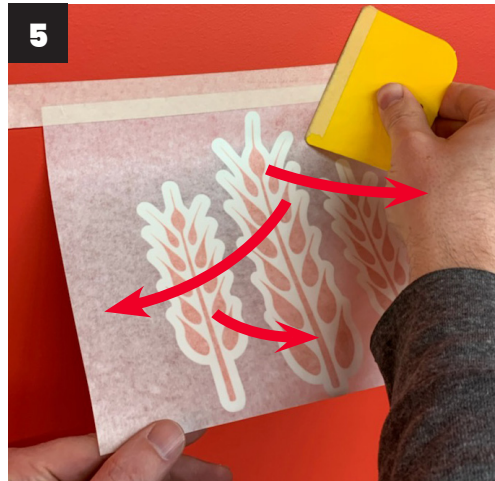

Decals.com

1

Clean surface

2

Use masking tape to temporarily adhere to intended surface and as a "hinge".
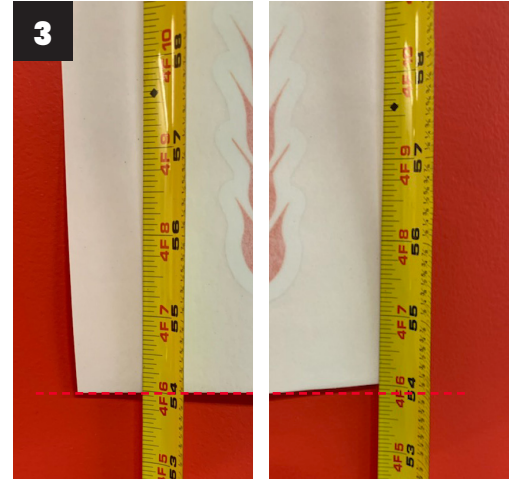

3

Use bottom of decal as a place to measure from - so it's level.

4

Peel off decal backing.

5

Using a decal application squeegee, press and apply decal to intended surface in pattern shown above. *

6

NOTE: Press hard when applying.

7

Peel / remove application mask. Go slowly. Be careful as the decal may peel away from surface.

8

Stand back and admire your job well done!

* If you do not have a decal application squeegee, you can use a credit card, your wallet, or a pack of post-it notes.
