FINISHING OPTIONS

Matte Laminate

Our matte laminate diffuses light and reduces the shine of the ink. The matte finish is used when clarity is priority and you want the text to be readable from all angles since it doesn't glare.

Gloss Laminate

Our gloss laminate adds a shine to your stickers that reflects light. This shine creates a more vibrant color when compared to the matte finish.

CUT OPTIONS

Kiss-Cut Stickers

Kiss-cut means we are only cutting through the vinyl layer (sticker material) and not cutting through the paper backing, leaving a paper border around your sticker. This means you will have extra material around your sticker for easy peeling and extra protection around the edges of your sticker - preventing any bending or folding.

Die-Cut Stickers

Die-cut means we are cutting through both the vinyl sticker material and the paper backing. This cut type doesn't leave any material around the sticker. Another way to think of it is like a "cookie cutter" - we individually cut stickers with no remaining material around the design.

SHAPE CUT OPTIONS

CIRCLE STICKERS

Stickers can range in size from 2" by 2" up to 12" by 12" - with the numbers increasing or decreasing in tandem.

RECTANGLE STICKERS

Stickers can range in size from 2" by 2" up to 12" by 12" - the measurements you pick will make a difference on the shape of the rectangle.

SQUARE STICKERS

Stickers can range in size from 2" by 2" up to 12" by 12" - with the numbers increasing or decreasing in tandem.

OVAL STICKERS

Stickers can range in size from 2" by 2" up to 12" by 12" - the measurements you pick will make a difference on the shape of the oval.

ROUNDED CORNER

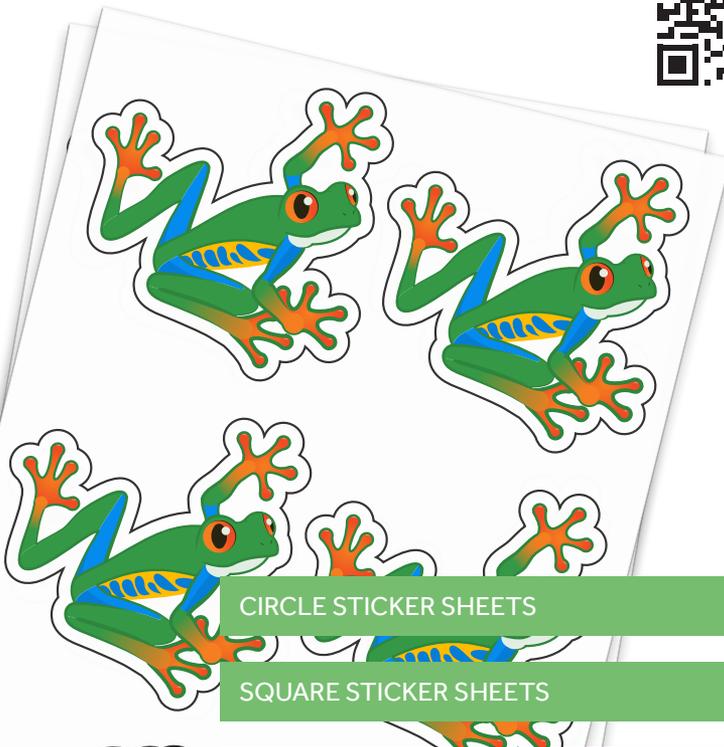

Stickers can range in size from 2" by 2" up to 12" by 12" - with the numbers increasing or decreasing in tandem.

STICKER SHEETS

Are great for bulk orders where your intention is branding or labeling items. These stickers come on 8in x 10in sheets, with the stickers being kiss-cut (see description on pg 3). The number of stickers on each sheet are based on the individual size of the stickers ordered.

These stickers are very easy to peel and place, speeding up the work even further. Just bend the sticker backing for easier leverage and efficiency. The stickers in your sticker sheet can be a custom, unique shape, or follow one of our standard shapes:
