17 ABOUT US

DPS ADVANTAGE

At Digital-Print-Solutions, we offer flexible production time ranges for you to choose from. Because it's important for you to have ultimate control over your order, our production times range from one to five business days. This allows you to make the final decision on when you need your order.

Knowing your customer's exact color is vital. That is why Digital Print Solutions offers a Color Match Proof system. When you choose Color Match Proof, we will ship you five variations of the specific color to pick from, allowing you control over exactly how your logo or design will print.

When you create an account with Digital Print Solutions your orders and business information will be saved to your profile, making reordering a breeze and consistent. You will also be set up with a dedicated customer service representative. You'll get to know them and best of all they'll get to know you and your orders, helping to create a consistent ordering and reordering process.

With our state-of-the-art grand format production facility, we have the ability to digitally print a variety of products and materials in both large and small runs. This large array of printing machinery allows us to limit our down time on the machines, improving efficiencies on our end and passing the savings on to you and your customers.

With our proprietary **Live Order Tracking** system, you can stay up to date on the current status of your order. Scan the QR Code to see for yourself!

VINYL BANNERS

VINYL OPTIONS

- (1) 13-oz. Gloss Scrim Vinyl
- (2) 13-oz. Matte Scrim Vinyl
- (3) 18-oz. Extra Heavy-Duty Matte Vinyl

SINGLE-SIDED VINYL BANNER

13-oz. Scrim Vinyl is made of a strong nylon mesh covered in vinyl.

- Available in matte or gloss.
- 3–5 year life span when continuously used outdoors.
- 7–10 year life span when used indoors.
- Matte max. print width is 16 feet by 50 feet.
- Gloss max. print width is 8 feet by 50 feet.

18-oz. Extra Heavy-Duty Matte Vinyl banner material is our toughest material.

- Has a low luster, blockout coating for extra durability and print quality.
- Max. print width is 8 feet by 50 feet.

DOUBLE-SIDED VINYL BANNER

Same vinyl options as single-sided vinyl banners.

- Heat-welded hems and grommets every 2–4 feet around the banner perimeter.
- Max. print width is 6 feet by 30 feet.
- Please note that if you design a banner online or upload a file, we will use the same print on the front and back of the banner. If you need different images for the front and back, please work with a customer service representative.

OVERSIZED BANNER

13 oz. Scrim Vinyl is made of a strong nylon mesh covered in vinyl.

- Available in matte finish.
- 3–5 year life span when continuously used outdoors.
- 7–10 year life span when used indoors.
- Max. print width is 16 feet by 50 feet.

DOUBLE-SIDED POLE BANNERS

DOUBLE-SIDED POLE BANNERS

- 13-oz. vinyl banner material.
- Typically displayed on light poles using mounting hardware (see below).
- All double-sided pole banners include 3 inch top and bottom pole pockets.
- Max. print width is 36 inches by 96 inches.

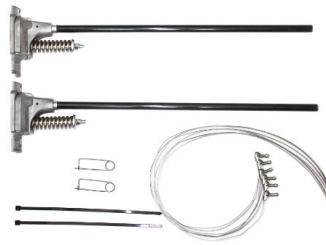

HARDWARE

Standard Hardware is commonly used outdoors for short term events where banners can be switched out often.

Wind Deflecting Hardware is engineered to properly disperse wind load by flexing with strong winds. This system will increase the longevity of your outside pole banners.

STANDARD HARDWARE

WIND DEFLECTING HARDWARE

CHAMPIONSHIP BANNERS

CHAMPIONSHIP BANNER

13-oz. Scrim Vinyl is made of a strong nylon mesh covered in vinyl.

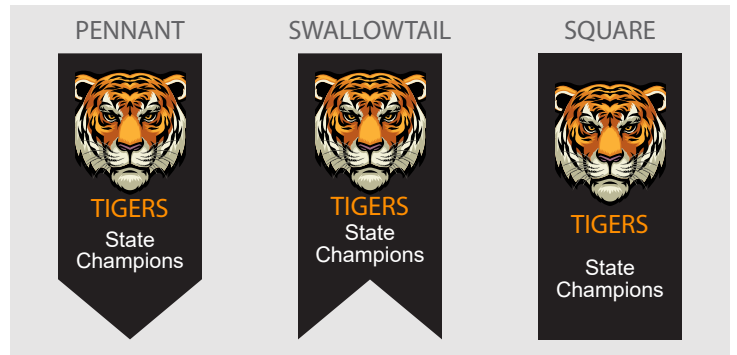

- Available in matte or gloss.
- 7–10 year life span when used indoors.
- Max. print width is 6 feet by 12 feet.

18-oz. Extra Heavy-Duty Matte Vinyl banner material is our toughest material.

- Has a low luster, blockout coating for extra durability and print quality.
- Max. print width is 6 feet by 12 feet.

Pole Pockets can either be 2", 3" or 4" and will not increase in the finished size of your banner.

- 2" pole pocket - fits a 3/4" diameter pole.
- 3" pole pocket - fits a 1 1/4" diameter pole.
- 4" pole pocket - fits a 1 1/2" diameter pole.

MESH BANNERS

MESH VINYL

- Printed on a 8 oz. PVC polyester mesh material.
- Allows for a 37% air-flow and works well for high-wind environments.
- Criss-crossed fibers which create a printable surface.
- Maximum print width is 16 feet by 50 feet.

FABRIC BANNERS

BANNER SOFT FABRIC

- Medium-weight fabric.
- Minimal light reflection, with a light sheen.
- Direct dye-sublimation printing process.
- Heat set water based ink cannot be washed out.
- Fire rated (NFPA-701 certified)
- Max. print width is 10-feet by 30-feet long.
- Plastic grommets on all fabric products.
- NOTE: Cannot match PMS colors.

CANVAS BANNERS

11-OZ. CANVAS

- Look, feel and texture of a classic painted canvas.
- Semi-gloss finish.
- Colors turn out bright and vibrant.
- Can be hemmed and grommeted.
- Commonly used for high-end displays, banners, and backdrops.
- Max. print width is 58 inches.

ACCESSORIES

ACCESSORIES

9" Ball Bungees are the most economical and secure way to attach grommeted banners to banner frames, sign posts or poles.

- Slip the cord through the grommet, around a stationary object, over the ball and your display is ready.

Hanging Clips are ideal for attaching street banners to cables or rope.

- Work perfectly with grommeted vinyl and mesh banners.

HANGING CLIPS

- Non-adhesive.
- Water and scratch resistant.
- Will not yellow or fade when displayed in direct sunlight.
- 58 inch max. print width.

ADHESIVE VINYL CUT OPTIONS

DIE CUT

KISS CUT

TRANSFER CUT

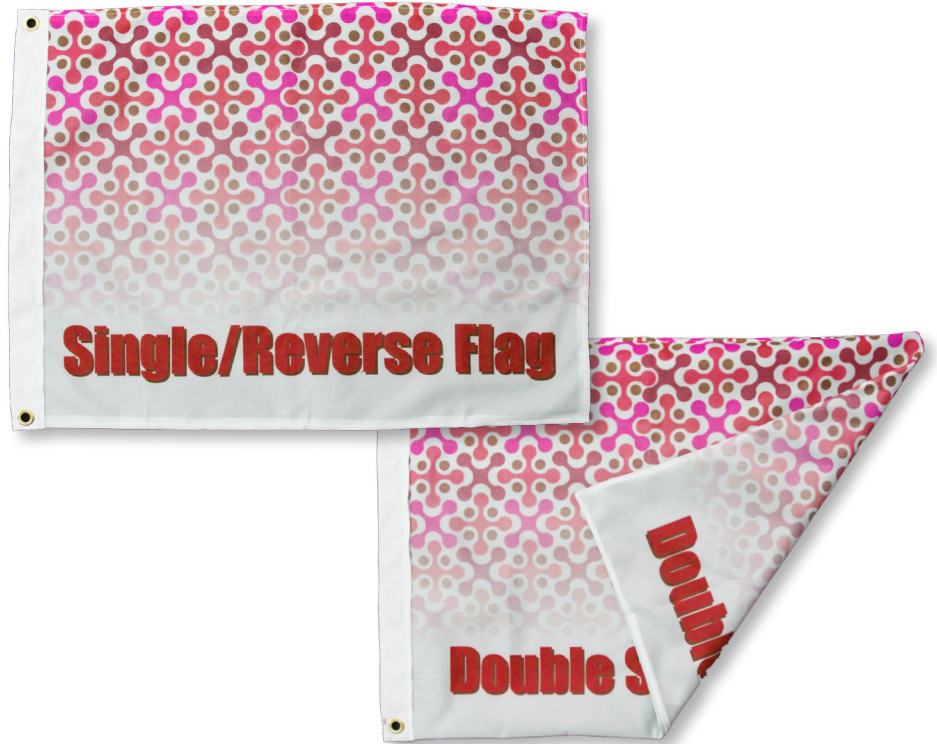

FLAGS

FABRIC FLAGS

Single / Reverse flags are printed on a single layer allowing the ink to penetrate the back, causing the image to be in reverse. NOTE: The image on the back of the flag will read backwards.

Double-Sided flags are two flags printed and sewn together with a blockout liner between them. Any wording and/or images on these flags will always be seen the correct way.

- Dye-sublimation printing process.
- Polyester-nylon blend. NOT the same material as a standard US flag.
- 3-6 months in continuous use.
- 4.5 ft. is the max. width.

FLYING BANNER DISPLAYS

Razor Flags / Rectangle Flags / Teardrop Flags are available in different sizes.

Visit www.digital-print-solutions.com or call (320)-391-5297 to receive a custom price quote on our wide array of sizes and styles.

ABOUT US

Digital Print Solutions is a wholesale large / grand format printing company located in Minnesota. We are strictly a wholesale printing company for, print shops, sign companies, advertising agencies, photographers and other resellers. You must submit documentation in order to get wholesale pricing.

We carry a wide array of materials, we have a friendly customer service staff, and we have the ability to print vinyl and mesh banners up to 16 feet by 50 feet without seams! Whether it is one banner or a hundred banners, we do short runs fast! We can also accommodate large runs to fit your schedule.

Did we mention our great prices? We have invested millions of dollars into our state-of-the-art production facility, we have the ability to digitally print on multiple substrates as well as print both small and large runs. Our current fleet of HP, Epson, and Mimaki printers allows us to print over 15 million square feet annually to meet our customers' needs. This helps to limit down times on our machines and gives us the ability to pass this saving on to you!

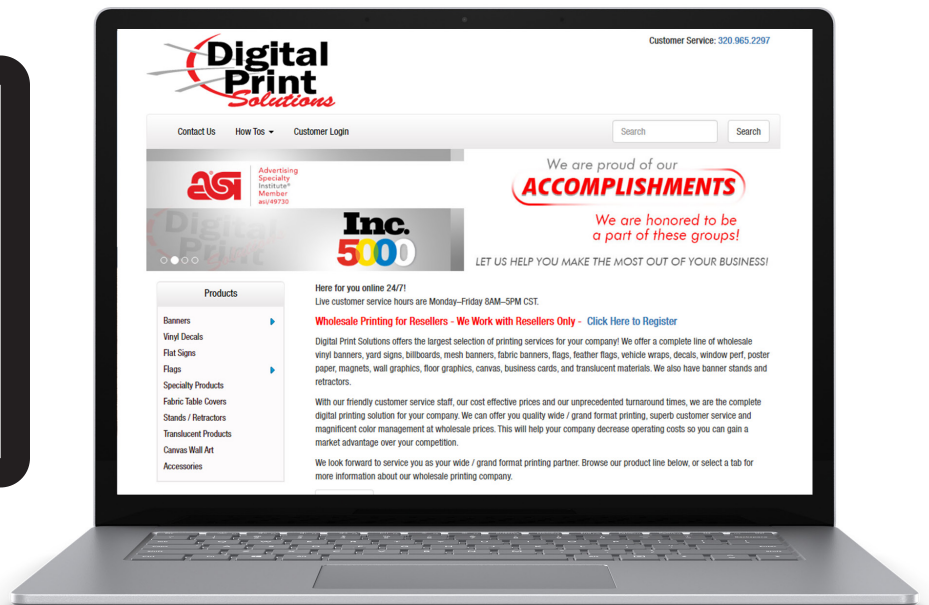

We value our customers and aim to have the highest customer retention rate possible. Over 98% of our customers state that they will use our services again and would recommend us to their friends.

- Here for you online 24/7!
- Live customer service hours are Monday–Friday 8AM–5PM CST.

You must create an account at www.digital-print-solutions.com for pricing and product updates.
